WORK EXPERIENCE

Frontend Developer Trainee Mehrab (EdTech Platform) [↗](#)

01/2026 - Present

Achievements/Tasks

- Significantly optimized frontend performance by resolving critical rendering issues, ensuring a stable, flicker-free, and highly responsive experience for users during data transitions.
- Built intelligent dashboard systems that dynamically adapt to different user personas, optimizing the delivery of complex data and real-time statistics based on user permissions.

Customer Service Representative (UK Account)

Vodafone Intelligent Solutions (VOIS)

07/2024 - 06/2025

Achievements/Tasks

- Resolved complex technical and account-related issues for UK customers, requiring clear communication and structured problem-solving.

EDUCATION

Frontend Engineering Programs

Frontend Masters Platform (remote) [↗](#)

06/2025 - 12/2025

Courses

- Semantic HTML5, modern CSS, and responsive design
- JavaScript fundamentals and advanced concepts
- React and Next.js for building production-ready web applications
- TypeScript for scalable, type-safe applications
- Firebase integration
- Frontend performance, accessibility, and best practices

Bachelor of Science.

Faculty of Science Aswan University.

10/2018 - 07/2022

Aswan, Egypt

Courses

- Introduction to Computer Science
- Calculus I & Calculus II
- Linear Algebra
- Applied Mathematics
- Thermal Physics
- Electric Physics

TECHNICAL SKILLS

JavaScript (ES6+)

TypeScript

HTML5

CSS3

React.js

Next.js

Tailwind CSS

Git

GitHub

VS Code

Responsive Design

Rest APIs

PERSONAL PROJECTS

Habitcon [↗](#)

- Built a habit-tracking web app with persistent state, ensuring user data is retained across sessions.
- Implemented complex date-handling logic to calculate streaks and navigate historical data.
- Designed a clean, responsive UI focused on usability and long-term engagement.

Social Medium [↗](#)

- Designed and developed a responsive publishing platform focused on user experience, accessibility, and typography.
- Implemented content creation and publishing workflows with clean, maintainable frontend architecture.
- Optimized UI layout and styling to enhance readability and usability across multiple devices and browsers.

Aswan-Med [↗](#)

- Designed and developed a responsive, location-based healthcare directory application.
- Implemented Google Maps integration for interactive clinic mapping and navigation.
- Optimized client-side filtering and search logic to ensure fast, real-time results and scalability.
